Ms Susan Houck
1826 Vine St.
Norman, Okla. 73072

Dear Susan:

I remember that you worked on my Ouachita Bibliography program at the Information Processing Center. The program is still being placed on a CD-Rom. It will probably be several more years before it is finished.

Your work on the project was excellent. I believe they called it a WERKS? Program. I am up to 14,000 entrees and am not finished. I do not know much about the mechanics of the program, but your work was just fine.

I do not have a computer, so I cannot send anything by E-Mail. This letter will be all that I can write.

If I know anyone who might have use for your services, I would be glad to recommend them to you. Genealogists should use your services.

Hoping that this will help, I am

Sincerely yours,

Dr. Robert O. Fay
