To Whom it May Concern:

I am writing on behalf of Susan Houck. I was associated with Ms. Houck during the time we worked together on the compilation of my book, *The International Biographical Directory of National Archivists, Documentalists, and Librarians*, second edition. Myself and two other editors worked on this book from 1998-1999, with the volume published by Scarecrow Press in August 2000. Susan, who worked for the University of Oklahoma's Document Production Services Department at the time, acted as compiler for the book. Her work involved collating and editing hundreds of biographical surveys from all around the world and then producing a camera-ready manuscript, ready for publications.

In all of my work with Susan, I found her to be knowledgeable, professional, and timely, three necessary facets when working on a concisely scheduled large-scale publication such as this book. Susan was always agreeable, open to new ideas, and determined to produce a product that not only I, but she also could be proud. In all of our business interactions, I was always pleased to be working with someone as determined and competent as Susan Houck. In fact, without her assistance, my book still might not be finished.

I highly recommend Ms. Houck for any level of publication formatting and/or copy editing you need. If you have any further questions, please contact me.
